# **Energy prices**

### Crude oil and natural gas

- In October 2023, crude oil prices decreased by 2% on average compared to October 2022.
- EU natural gas prices decreased by 63% since October 2022.

Click here for more information

### **Transport costs**

### Global shipping and air freight

- The global container freight rate index decreased by 69% between October 2022 and October 2023.
- Air freight rates were down 32% compared to October 2022.

### **Packaging**

### Wood and paper

- August year-on-year, producer prices index of wooden containers dropped by 15%, but were up 39% compared to August 2020.
- Producer price indices of pulp, paper and paperboard dropped by 15% compared to August 2022, but were up 35% compared to August 2020.

### Plastics and metal

- The producer price index of plastic packing goods has decreased by 3% compared to August 2022, but was up 24% compared to August 2020.
- The August year-on-year comparison shows that the producer price index of light metal packaging

grew by 6%, but was up 35% compared to August 2020.

Click here for more information

# **Machinery for processing**

 The producer price index of machinery for food and drink processing registered a 3% increase since August 2022.

Click here for more information

### Labour

### Labour shortage

- The job vacancy rate in the EU manufacturing industry marked a decrease since Q2 2022 (Q2 2023/Q2 2022: -13%).
- In Q2 2023, the job vacancy rate in the manufacturing industry varied across Member States, from 4.4% in the Netherlands to 0.8% in Poland.

Click here for more information

### Agricultural raw materials

- The FAO food price index was down 10.9% compared to October 2022.
- For further details, please see the European Commission's monthly <u>commodity price</u> <u>dashboard</u>.

### **Animal feed**

- Producer prices of animal feed increased since August 2020, plateaued in the second half of 2022, and started to decrease in Q1 2023.
- The August 2023 year-on-year comparison shows that the producer price index of animal feed was down by 8%, but was up 34% compared to August 2020.

#### Note on

### • Producer Prices Index (PPI)

The PPI for a specific economic activity measures the monthly change in the trading price of products and related services. The PPI is an output index - it measures price changes from the seller's perspective. The prices collected in period t should refer to orders booked during period t (at the moment of the order) and not the moment when the commodities leave the factory gates.

### Job vacancy

A job vacancy is defined as a paid post that is newly created, unoccupied, or about to become vacant:

- for which the employer is taking active steps and is prepared to take further steps to find a suitable candidate from outside the enterprise concerned; and
- which the employer intends to fill either immediately or within a specific period of time.

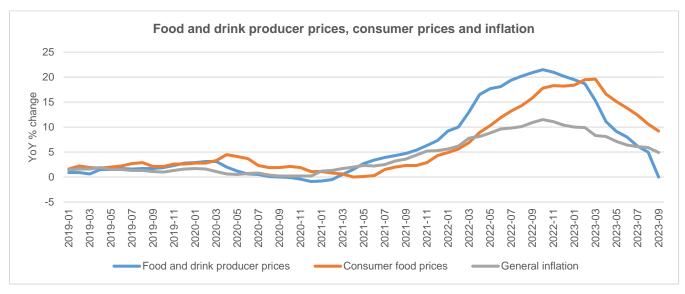

Job vacancy represents the unmet demand for labour.

### **Transport costs**

Source: Freightos, Global Container Freight Index

### **Supplementary notes:**

FBX stands for Freightos Baltic Index. The index represents a market rate for freight for any given shipping lane for a 40' container. The index is based on aggregated and anonymized real-time business data from global freight carriers, freight forwarders, and shippers that use the WebCargo by Freightos freight rate management platform. The values are an average of the five business days of the last full week in each month. The values are a monthly average of weekly prices.

### Air freight index

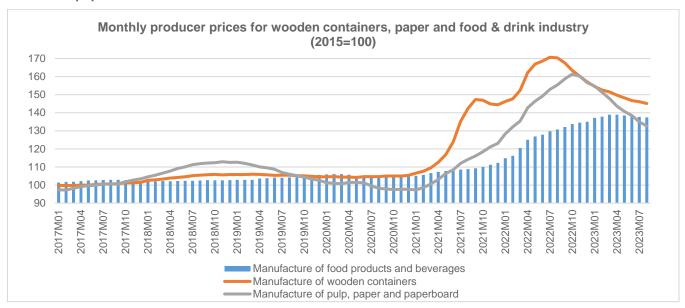

Source: Baltic airfreight index

The Baltic Exchange Airfreight Index (BAI) – powered by TAC data – reflects the price per kilogram of general cargo flown on 17 key trade lanes, from origin airport to destination region. The Baltic Air Freight Indices (BAI) reflect weekly transactional rates for general cargo as provided by freight forwarders. The data includes a headline index - the BAI Index – a weighted average of the 17 underlying destination basket routes, as well as six outbound indices – a weighted average of the destination baskets from each of the six origin airports.

### **Notes:**

Changes in world prices are based on prices expressed in USD.

Source: European Commission PRICE DASHBOARD No 133 - June 2023 edition

<sup>1)</sup> EU cereal quotations: soft wheat and barley (delivered Rouen), durum wheat (Port-La-Nouvelle/La Palice) and maize (Bordeaux).

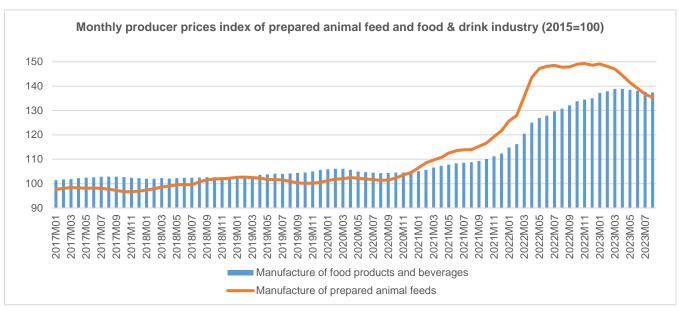

<sup>2-3)</sup> US Soft Red Winter Wheat and US Hard Red Winter Wheat.

<sup>4)</sup> Figures for previous month.

<sup>5)</sup> Preliminary price.

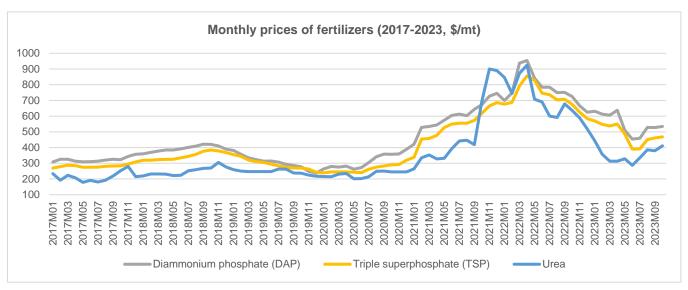

<sup>6)</sup> World pork price is represented by US, as it is the biggest world exporter after the EU.
